

# MS3500

## Infant & Toddler Scale

The MS3500 infant digital scale features sloped edges to safely and comfortably hold infants during weighing. Highly accurate, the scale is able to track even slight changes in infants' weight. With a removable baby tray and 20kg capacity, it can be used to weigh toddlers as well.

Receive height results using the optional stadiometer, and send results wirelessly to compatible EMR systems!

View height results on LCD screen (and transfer results) when compatible infant stadiometers (HM80DT, HM100D) are attached
